

Request

for use of observational data from ornitho.de version: 25.01.2019

* mandatory field

Application number					
(to be filled by the steering committee)					
Applicant (Last name, first name) *					
Institution / organization					
Address *					
Telephone number					
E-mail *					
Have you submitted a request	🗌 Ye	es			
before?*	No. Please give a short, meaningful description of yourself:				
(max. 1,000 characters, if necessary add separate document)					
Project title *					
Project description *					
(max. 1,000 characters, if necessary add					
separate document)					
Does the project have a	ΓΥ	20			
commercial background? *					
Do you intend to provide the	No, usage only within the above-mentioned institution / organization				
bo you meenu to provide the	Yes, please name the person(s) and justify briefly				
requested data to any other		es inlease name the nerso	n(s) and justify briefly		
requested data to any other (external) person(s)? *	∏ Ye	es, please name the perso	on(s) and justify briefly		
(external) person(s)? *			on(s) and justify briefly End *		
(external) person(s)? * Period of the project *	Start	*	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring	Start	* ne-time			
(external) person(s)? * Period of the project * Request for one-time / recurring data provision *	Start	*	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring	Start	* ne-time	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product /	Start	* ne-time	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product /	Start	* ne-time ecurring	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation *	Start	* ne-time ecurring	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data	Start	* ne-time ecurring	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species *	Start	* ne-time ecurring	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g. only records with breeding code)	Start	* ne-time curring able probably by:	End * Interval:		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g.	Start	* ne-time curring able probably by:	End *		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g. only records with breeding code)	Start	* ne-time ecurring able probably by: Germany-wide or more	End * Interval: than one federal state (please describe exactly):		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g. only records with breeding code)	Start	* ne-time ecurring able probably by: Germany-wide or more Only data from the follo	End * Interval: than one federal state (please describe exactly): wing federal state or sub-areas of it are		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g. only records with breeding code)	Start	* ne-time ecurring able probably by: Germany-wide or more Only data from the follo	End * Interval: than one federal state (please describe exactly):		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g. only records with breeding code) Region *	Start	* ne-time ecurring able probably by: Germany-wide or more Only data from the follo requested (please describe	End * Interval: than one federal state (please describe exactly): wing federal state or sub-areas of it are		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g. only records with breeding code)	Start	* ne-time curring able probably by: Germany-wide or more Only data from the follo requested (please describe Raw data	End * Interval: than one federal state (please describe exactly): wing federal state or sub-areas of it are exactly or provide GIS shape file):		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g. only records with breeding code) Region *	Start	* ne-time curring able probably by: Germany-wide or more Only data from the follo requested (please describe Raw data Data format:	End * Interval: than one federal state (please describe exactly): wing federal state or sub-areas of it are exactly or provide GIS shape file): xls xlsx		
(external) person(s)? * Period of the project * Request for one-time / recurring data provision * Description of the final product / documentation * Description of the requested data Species * Period (years) * Only the following data (e.g. only records with breeding code) Region *	Start	* ne-time curring able probably by: Germany-wide or more Only data from the follo requested (please describe Raw data Data format:	End * Interval: than one federal state (please describe exactly): wing federal state or sub-areas of it are exactly or provide GIS shape file):		

¹ as defined in the "Rules of ornitho.de" (Sect. 4.2), including professional activities and within the meaning of the UStG § 2 paragraph 1, sentence 3 ² as defined in the "Rules of ornitho.de" (Sect. 1)

>>> please continue on page 2

Personal data	Observation data will be provided without observer name or ID by default.			
		I request the provision of the observation data including anonymous observer IDs (Reason):		
		I request the provision of the observation data including the names of the observers (Reason):		
Costs for the provision of data	I have taken note that there may be a fee for providing the data. I or the above-mentioned institution / organization will pay timely if a fee is set by the steering committee.			
		I apply for exemption from the fee, set by the steering committee (possible only in case of non-commercial purposes). Please justify (please submit useful documents separately):		

Commitment *

I accept (if applicable on behalf of the above-mentioned institution / organization) the current Terms of Use, published in the Appendix 1 to the "Guidelines for the use of observational data from *ornitho.de* (casual observations)" on *ornitho.de*.

I certify by my signature to have taken note of the "Guidelines for the use of observational data from *ornitho.de* (casual observations)" and to have filled this form truthfully and to the best of my knowledge.

I am aware that violations of the Terms of Use fulfill the elements of embezzlement. The DDA and his partners of *ornitho.de* may take legal action against any offenders.

Applicant	Place and date	Signature (Entry of the name sufficient)
Approved	Place and date	Signature (Entry of the name sufficient)
